Jimuel Amuto

Front-End Developer

Butuan City, Philippines jimuelamuto@gmail.com github.com/itzJimuel

SUMMARY

I'm a front-end developer and 4th-year IT student at Caraga State University – Cabadbaran Campus, based in Butuan City, Philippines. I love turning ideas into interfaces that feel clean, fast and easy to use, on both the web and mobile.

SKILLS

Front-End: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS

Mobile & Machine Learning: Flutter, Dart, Python, TensorFlow Lite

Back-End & Tools: PHP, MySQL, Supabase, Firebase, Git, GitHub, VS Code, Vercel

PROJECTS

Door of Hope ChMS github.com/itzJimuel/Door-of-Hope-ChMS

Next.js · React · TypeScript · Tailwind CSS · Supabase

A phone-friendly church management system for Door of Hope Assembly of God: member records, QR-code check-in, automatic attendance status, role-based access and a pastor's dashboard that flags who needs a follow-up.

BoardingHub github.com/itzJimuel/ReadyFinalChecking

PHP · MySQL · JavaScript · HTML · CSS

A boarding house and dormitory finder for students, with search filters, room reservations, saved listings, OTP account verification and an admin panel.

Car Brand Logo Classifier github.com/itzJimuel/IT-120-Final-Project-GitHub-repository-Submission

Flutter · Dart · TensorFlow Lite · Firebase

A Flutter app that recognizes 10 car brands common in the Philippines from the camera or gallery, using an on-device TensorFlow Lite model and logging results to Firebase.

Flutter UI Components github.com/itzJimuel/Flutter_Widget_UIComponents

Flutter · Dart

A set of reusable Flutter widgets: scaffold layouts with app bars, tabs, side drawers, floating action buttons and bottom navigation.

EDUCATION

BS Information Technology 2023 – Present

Caraga State University – Cabadbaran Campus, Cabadbaran City

Fourth-year student focusing on web design, front-end development and machine learning.

- IT 120 final project: a Flutter app that recognizes car brands with an on-device ML model
- Built web systems in PHP/MySQL and Next.js as course and personal projects
